

Lesson 3: Wayback Machine

Name:

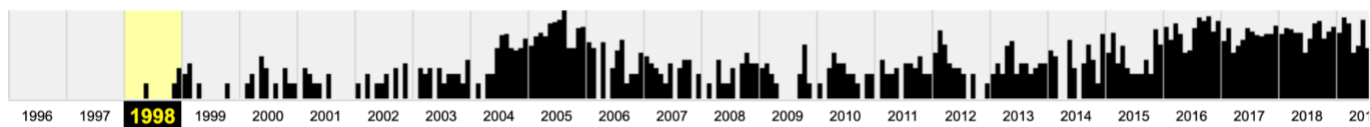

Class:

Time Travel Web Page Activity Instructions:

1. Open a new tab
2. Go to web.archive.org OR [this alternative](#)

3. Type your school's web address in the search box

You will see a timeline of web page 'captures' for your chosen website. In this example, the first record of the website in wayback in 1998!

4. Click on the earliest entry

- On the timeline, click on the earliest year the webpage has a history for
- On the calendar, 'mouse over' the dates that have been shaded - this example has November 11, 1998 with a blue circle
- Click on the 'snapshot' (18:42:25)
- You should be able to see the first webpage

Note: sometimes error messages may come up. If this happens, choose the next 'earliest' date and try again.

5. Take a screenshot of the 'Oldest website record' and insert the image into the table below
6. Fast Forward to current day (click your mouse on the timeline for 2022)
7. Take a screenshot of 'Website today' and insert the image into the table below

Example:	Oldest website record	Website today
Nintendo Website: https://www.nintendo.com.au/ #WOW - checkout the difference!		

Time Travel Web Page Activity

	Oldest website record	Website today
