Lesson 6: Software Engineering

Name: .... **Class:** ....

Part 1 - Preparation

Now that you have some design ideas, we will get some feedback from other students in the class! Follow these steps:

1. Pair up with another student.
2. Give them this worksheet, along with your designs.
3. Have them fill in the following questionnaire.
4. Modify your designs as necessary - you could even take some ideas that you saw in your partners designs and apply them to your own website!

REMEMBER: All feedback should be constructive. There is no point writing "This is bad.", a better approach would be to write "I found it difficult to read the green writing on the black background."

Part 2 - Main page

Written Feedback	
Best parts: (e.g. colours, layout)	1. 2. 3.
Needs work: (e.g. size of font, can't read the text)	1. 2.

Rating from 1 to 5 (1 = needs work, 5 = excellent)					
	1	**2**	**3**	**4**	**5**
Easy to use:	●	●	●	●	●
Colour choices:	●	●	●	●	●
General layout:	●	●	●	●	●
Average score:	●	●	●	●	●

Part 3 - Day page

Written Feedback	
Best parts: (e.g. colours, layout)	1. 2. 3.
Needs work: (e.g. size of font, can't read the text)	1. 2.

Rating from 1 to 5 (1 = needs work, 5 = excellent)					
	1	**2**	**3**	**4**	**5**
Easy to use:	●	●	●	●	●
Colour choices:	●	●	●	●	●
General layout:	●	●	●	●	●
Average score:	●	●	●	●	●

Part 4 - General comments

Feel free to type in some notes below!
